# Real People, **Real Savings.**

## **This saved us over \$12,000 per year in premiums!**

*"We will be ending up with much better health insurance coverage and at about ½ the cost of what we have been paying. That will save us over \$12,000 per year in premiums! There are expenses associated with getting those savings, but we are still going to come out to the good about \$9-10,000 in year 1."*

## **A game-changer for us!**

*"The Group Health Insurance benefits we've added have been a game-changer! They offered us a great medical insurance program, and we also use them for our payroll and 401k administration."*

## **We saved over \$45,000!**

*"After adding in the worker's compensation & ancillary benefit comparison (dental & vision), the overall cost savings generated by the move to Paychex PEO comes to \$45,972 per year!"*

## **Access to this AAPB-Chalice MD Program changed how we are growing as a firm, in a great way.**

*"Chalice and Paychex have been good partners for my firm by helping us with benefits that typically are available only to larger organizations. Its been a incredible growth tool for the firm."*
